## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art is cited on the attached PTO 892 and IDS forms. None of the references or combinations thereof disclose or suggest a structural dielectric arm supported by a substrate and having upper and lower surfaces suspended above the substrate, and having a *via registering* with the upper and lower surfaces; a first conductive element contacting the lower surface; and a second conductive element contacting the upper surface and *electrically communicating with the first conductive element through the via* as required by the presently claimed invention. Therefore, the present Claims are allowable over the cited prior art. Divisional case, now US Patent No. 6,746,891 is merely cited to show the state of the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
